

SHIPS ARE WARNED OF GULF COAST STORM

ISLANDERS SEEK SAFETY ON LAND

Shipping at Galveston Is Little Damaged, But Few Ports Threatened.

(By the Associated Press)

GALVESTON, June 22.—Little damage was anticipated in shipping circles here from the storm which struck the Texas gulf coast last night. The wind was blowing in gusts of from 25 to 30 miles an hour with dashes of rain. The tide was two feet above normal and heavy seas were rolling in from the gulf.

A maximum tide of six feet with a maximum northeast wind velocity of 40 to 50 miles an hour is predicted to develop at Galveston. Small craft have been warned of danger and no effect on the large ships is anticipated.

News from Point Isabel was anxiously awaited. The last report at midnight said that the wind was blowing between 65 and 75 miles an hour in that section. The tide almost covered Padre and Brazos Islands, the report said, and civilians and life-saving crews were forced to go to the mainland. At 8 a. m. the barometer here read 29.74, a drop of one point in an hour. The wind had shifted from east-northeast to southeast and was blowing 35 miles an hour, with occasional gusts of 60 miles. A tide of 4.5 feet shows a rise of four inches since 7:30 a. m. The local weather observer believed that the crest of the storm would pass by tonight. The storm created little excitement here, interurban and railroad officials reporting a slightly increase of traffic out of Galveston this morning, however.

Gusts Are Subsiding.

CORPUS CHRISTI, June 22.—Although a 60 mile wind in gusts was recorded here between two and three o'clock this morning, at 9:30 a. m., the wind had died down to 10 miles an hour and the barometer was stationary. At three this morning the tide showed a rise of only six inches and it has not risen further.

The wind started blowing at seven last night, the blow slowly increasing till three this morning. A heavy rain accompanied the wind. The weather was distinctly squally, but there was little uneasiness apparent among the citizenship and no warning to leave low ground was issued. Boats coming in from Flower Bluff 14 miles south of Corpus Christi, reported a three-foot tide.

High Wind Reported.

HOUSTON, Tex., June 22.—Reports received from various points along the coast to the south by the Southwest Bell Telephone Company at 6:15 this morning showed a high wind at Corpus Christi, a velocity of 66 miles an hour.

The barometer at Port Arthur read 29.89.

Storm Reported Moving North.

DALLAS, June 22.—Little damage and no loss of life has been recorded to shortly before noon today as a result of the hurricane which swept the coast from Galveston to Point Isabel last night and continued today. The center of disturbance apparently had not struck the coast up to 10 o'clock this morning, however. Later predictions indicate the storm to be (Continued on Page Eight)

SIMS RETURNS TO EXPLAIN ACTIONS

Thousand Bluecoats Go Out to Meet Rear Admiral and Keep Order.

(By the Associated Press)

NEW YORK, June 22.—Rear Admiral Sims returned home today to explain to Secretary Denby remarks attributed to him in his recent London speech on Irish-Americans. Refusing to be taken ashore on a cutter, he came up the bay aboard the liner Olympic to meet friends or foes, whoever might be awaiting him near the pier.

Everything was peaceful when the veteran seadog landed. A thousand bluecoats were massed on the dock to preserve order.

Indeed, so many of them were there that, with the wharf workers and the passengers, it would have been difficult for many other persons to have found foothold on the pier.

The police formed lines running north and south of the pier entrance. Not even when Woodrow Wilson returned from the peace conference was there more thorough preparation made.

The admiral was the first person to set foot ashore. He entered an elevator a few feet from the end of the gangplank and descended to the main floor of the pier, where he stepped into an automobile with Rear Admiral Huse, commandant of the third naval district. Leaving the pier, he rode away announcing that he would take the first train for Washington.

On the trip from the quarantine he maintained a strict silence, declining to make any statements before he should report to the secretary of the navy.

At the station, however, there was a few boos and cheers and one woman was seen parading with a banner bearing a picture of a jackass, apropos of the reference to jackasses reported to have been made by Admiral Sims in his London speech. The woman was not troubled by the police.

The admiral was dressed in multi during the voyage. He wore his uniform only at dinner. Mrs. Sims accompanied him home.

He chatted with the newspapermen on the way up from quarantine and seemed in the best of humor on his way to the pier. The Olympic passed a sound steamer whose passengers lined the rail. Across the stretch of water came the sound of cheers for Sims.

The admiral told newspaper men that the cable message from Secretary Denby ordering him to return had been greatly delayed. Shown cartoons of him, the admiral smiled and said he might have something to say later. He said that after going to Washington he expected to return to Newport.

RULES ON TRAFFIC ARE LIFTED AT PUEBLO, COLO.

(By the Associated Press)

PUEBLO, June 22.—All restrictions on tourist traffic through Pueblo was lifted today by the military authorities at the request of the city authorities. Passes are still required to be on the streets of the city between dark and day-break.

"TRUTH IS STRANGER THAN FICTION"

EXPECTS SCHOOL TO BE CROWDED

Enrollment for Local High School Will Run 400 Next Year.

That the high school building will be filled to its capacity the coming school year was the opinion expressed yesterday by A. L. Fentem, principal. The last graduating class relieved the situation by 48, which with the usual decrease by students who will not return because of a change of residence or similar causes, brings the prospective enrollment well under the 300 mark.

However, the new freshman class coming from all the ward schools of the city, will number at least 125, making a probable total of over 400. With the new ward building increasing the grade attendance, the number of eighth grade graduates each year will increase more rapidly.

Mr. Fentem believes that the approximate limit of enrollment in the high school will be about 450 until there is a substantial increase in the population of Ada. However, that increase seems to be taking place now to judge from the number of homes being built and the new business organizations settling here.

The principal states that by much crowding he can accommodate the normal enrollment for the coming year, but should the threatened oil boom become a fact his plans would be immediately changed. Teachers can be employed but there is no place to put them. Every room available at present is scheduled for four hours each day except two rooms which will be used only two hours, it is understood.

Consequently he declares he can only wait and watch for what the days will bring.

Americans Regain Title.

(By the Associated Press)

LONDON, June 22.—America today regained possession of the international polo trophy by defeating Great Britain in the second match 10-6 and winning the series by two matches to none.

The Smathers-Schreiber orchestra added new stars to their crown last night, with a concert given at Drummond's Drug Store. A splendid program was presented, consisting of several numbers of each grade of music—waltzes, jazz, popular numbers and standard overtures.

COUNTY PREPARED TO RESIST FEVER

Health Statement Shows City to be Well Protected Against Typhoid.

Local physicians and health officers are of the opinion that Ada and Pontotoc county are better prepared than ever to withstand an epidemic of typhoid fever, small pox or other contagious disease. Dr. S. P. Ross, city health officer, stated today that he had visited other cities of the state and that Ada would compare with the best of them in sanitary conditions. In some cases this city is in a much better condition than others, he said.

"My advice would be, however, that everybody who has not taken the typhoid serum treatment during the past two years, come to my office as soon as possible for the treatment," he said when discussing the matter. "This would be a great preventative method to adopt and I am sure the number of cases would be decreased this year if it is done."

Dr. J. A. Deen, county health officer, announced today that the county was in a good condition from a sanitary standpoint. Vanoss, Roff, Fitzhugh and most of the other towns in the county are in a fair condition, according to his statement.

Only two cases of smallpox are under quarantine at this time and only one or two minor cases in typhoid fever are reported. This is a very small number for the time of year and is less than last year at this time, doctors say.

Charles S. Taylor, Boston Editor, Is Dead at Age of 75

(By the Associated Press)

BOSTON, June 22.—General Chas. S. Taylor, editor and publisher of the Boston Globe, died at his home here today. He had been fairly active until recently two shocks, within a week of each other preceded the end. He was 75 years old.

NOTICE MASONS.

Ada Lodge No. 119, A. F. & A. M., will meet at 2 o'clock Friday, June 24th, to attend the funeral of Brother C. C. Camp. —John Thrasher, W. M.

DAWSON STARTS MEETING HERE

Waco Minister no Sensational Preacher, He Declares.

Rain did not keep a good crowd from hearing Dr. J. M. Dawson, pastor of the First Baptist church of Waco, Texas, in his opening sermon for the Baptist revival meeting here last night.

Dr. Dawson arrived weary from his trip from Waco but filled the pulpit his first night in Ada. He will be assisted in the meeting by his wife who will do work in the choir and in group meetings for the ladies. Mrs. Dawson teaches a Sunday School class of 250 girls from Baylor University and is considered a valuable worker in church circles.

The insured Harvest was the topic of Dr. Dawson's sermon last night. Wednesday morning, at the 11 o'clock hour, the evangelist preached on "Christianity in the Home." In his opening message here, Dr. Dawson declared he was not a "professional, sensational evangelist who used 95 per cent athletics and 5 per cent Gospel." He is pastor of a busy church and only a few times each year is permitted to escape from his charge long enough to help conduct a revival meeting in other places.

Discussing problems of the revival meeting here, Dr. Dawson said if the people did not come to the church, the church must go forth to them. He stressed the damaging effects of dignity and inconsistency of the religious life in many of the churches of today.

Services of the revival will be held twice a day until the meeting closes. Morning services Wednesday morning were advanced from 10 o'clock to 11 o'clock to give way to a wedding that had been planned several weeks ago to be held in the church auditorium. Hereafter services in the morning will start at 10 o'clock sharp. The outdoor meeting place will be used when weather permits.

ERTILE IS ELECTED TO REFEREE CHAMPION BOUT

(By the Associated Press)

JERSEY CITY, June 22.—John Henry Ertle of Jersey City today was formally selected by the New Jersey State boxing commission as referee for the Dempsey-Carpentier bout on July 2.

BANKS SEE MUCH RELIEF IN CROPS

County in Much Better Shape Than Many of State.

(By the Associated Press)

When Pontotoc County's promising crops are harvested, the entire county will be ready to launch into a new era of general prosperity and relieved financial feeling, according to views expressed today by leading bankers of Ada.

Bumper crops, such as are expected to be reaped in practically all parts of the county, coupled with the contemplated loan of \$50,000,000 to cattle raisers, will assure a period of no small relaxation in financial affairs of the community, those who are closest in touch with the money market agree.

At no time during the recent period of "widespread depression" have local banks been as hard pushed as have banks in other towns of the state, it is believed. Although there has been a perceptible tightening of all money matters, to the total exclusion of speculation, wild investments, and "good natured" loans, still no farmers of this county have been denied loans to finance their crops, bankers stated. This has prevented finances of the county from getting into such a pinch that no money would be available, it was pointed out.

Confidence Needed. That is exactly what we need. There is as much money in the world now as there was when times were at their best," P. S. Case of the Merchants and Planters bank, declared. "The banks are not 'busted' and are not going to be as long as they have the confidence of the public. Our present agitation about financial depression is dangerous to the extreme. Finances of a country or a community are as good as the minds of people in that country or community believe them to be. When there is a waning of confidence, finances are stretched and the lower the confidence the more dangerous do finances become. The more intelligent people know their grounds. It is usually the ignorant or uninformed man who spreads the scare of panics and bank failures."

"I believe the cattlemen's loan will be an absolute boon to stock raisers. An easy term loan, such as I expect this one to be, for two or three years with liberal allowance for the predicament of stockmen everywhere, will tide stock raisers over, give them a new grip on their business, and stimulate the industry generally," Mr. Case said.

Farmers' Cargo For. "Of course we bankers here are not able to say with any authority as to the future of finances in the country. All we know is about the local situation—and we think most of that," C. H. Rives, of the Oklahoma State bank answered when approached on the subject. "But we are optimistic. We have taken care of all our customers on loans and I think I see a bright future, not only for farmers but for business men in general. Prices will be better when our crops are harvested. Deposits in local banks will grow. We are confident that relief will come within three or four months. All banks here are in better shape than in almost any other town in the state, due partly to oil developments which have put money into circulation and brought new money to the county. Oil has enabled many farmers to pay off mortgages on their land."

"The cattle loan will give relief to cattle raisers. It will keep off a low market and will be the salvation of prices," Mr. Rives predicted.

With the opening of better exportation facilities, finances of the entire country will be given new life, H. W. Wells of the Security State bank stated. "According to my way of thinking there must be some relief from the outside before any noticeable difference is felt anywhere. I am optimistic and believe we're due to see better things soon. This bank is in good shape and Ada in general has been spared much of the financial embarrassment that many towns of the state have felt, I am sure," Mr. Wells concluded.

"Unless things we can't foresee come up, I believe relief will be at hand shortly," P. A. Norris of the First National bank said. "The cattle men's loan will promote more enthusiasm on the part of our live stock raisers and the good morale brought on by the loan is sure to exert a tremendous influence on the confidence of business interests everywhere," Mr. Norris said, echoing the general note of hope sounded by local bankers.

BOTH FACTIONS CLAIMING VOTES

Lewis and Gompers Cliques Fighting to Name Head of Federation.

(By the Associated Press)

DENVER, June 22.—The forces behind John L. Lewis, candidate for the presidency of the federation, today admitted that delegates of the Ladies Garment Workers' union had switched their votes to Mr. Gompers, while three delegates of the United Mine Workers were reported to have gone over to Gompers. The Lewis forces still claimed enough votes to win, while the Gompers backers are equally confident that they will re-elect their candidate.

While the Lewis supporters admitted that their own delegation would be split, they claimed that sufficient votes had been pledged by the metal trades and railroad organizations, which, together with the machinists and the carpenters and joiners, would elect their candidate. Their line-up gave approximately 20,000 of the 38,294 votes in the convention.

The Gompers men declared that they were sure of at least 30,000 votes, nearly ten thousand more than are needed to win.

Labor leaders who were watching closely the vote maneuvers declared that it might be decided one way or another by the 214 votes of the state central body, trade and federal labor unions and fraternal organizations.

Protesting the action of the convention in voting down the boycott decision which they claimed had been drafted by "high officials of the Irish republic," the boycott supporters contested every effort to bring the sympathy resolution to vote, without a boycott provision, by raising points of order and attempting to have the entire matter referred back to the committee for reconsideration.

The convention unanimously adopted a resolution urging a modification of the Volstead Act to permit the manufacture and sale of beer. The officers and the executive council were instructed to work for a change in the law and if this should not be successful, all unions would be called on to put it before congress.

DENVER, June 22.—After a stormy debate, the American Federation of Labor convention today disposed of the Irish question by adopting the resolution trimmed of its most drastic boycott provisions, expressing sympathy for the Irish cause.

The Irish sympathizers attempted to have the convention overthrow the ruling made by President Samuel Gompers which prevented reconsideration of their proposal.

The appeal of the boycott supporters from the ruling of President Gompers proved one of the stormiest sessions in the history of the federation. Cheers and jeers were heard as the boycotters took the floor and attacked Mr. Gompers, who had ruled out a motion to have the boycott declared added to the resolution expressing sympathy for the Irish republic, which was reported favorably by the committee.

Lightning Kills Bristow Farmer; Flood Reported

(By the Associated Press)

BRISTOW, June 22.—Lee Haulstein, a farmer living eight miles southwest of here, was killed by lightning near his home last night. A man standing near by was knocked unconscious for more than an hour, but recovered.

A severe rainstorm accompanied the lightning, 2.2 inches of rain falling in one hour. A small creek which flows through Bristow left its banks and flooded the first floor of a number of dwellings. However, it subsided in a short time.

NEW SEWER DISTRICTS ARE CREATED BY CITY

A meeting of the city commissioners was held at the mayor's office yesterday afternoon at which time several routine business matters were taken up. At this meeting sewer districts No. 15 and 16, in Barringer Heights addition, were created. Bids will be received for the work of laying the sewer line as soon as arrangements can be made.

No other business of importance was discussed, except matters concerning the Broadway paving project. Property owners on this street are determined to get it paved, it is reported, and everything possible is being done to put it through.

OKLAHOMA WEATHER
Tonight and Thursday cloudy, probably rain.

**CANOEISTS AND CAMPERS SPEND HAPPY SUMMERS
MID ANCIENT PLEASURE GROUNDS OF INDIANS**

Ages are the voyageur and the missionary penetrated the wilds of Ontario, Kawartha was what it is today, a summer playground. Only the original name remains to remind us that this was the "Bright Waters and Happy Lands" of the Ojibways, the Hurons, the Algonquins and other Indian tribes. Through its maze of waterways glided their birch bark canoes and on the tree-bordered shores of mainland and islands burned their camp fires.

The paddle still sings its summer song and bright colored canoes slip through the blue waters while camp fires gleam nightly in Kawartha during summer months, but it is an army of pleasure-seeking pale-faces who enjoy this pine-scented lake district today.

Kawartha embraces fourteen beautiful lakes—Scugog, Sturgeon, Cameron, Balsam, Pigeon, Bald, Sand, Buckhorn, Chemong, Deer, Lovesick, Stony, Clear and Katchewanooka. Each has its unique attractions while sandy beaches and excellent fishing are common to all. Accommodations for visitors are abundant and varied. Cottages, isolated and in colonies, and hotels ranging from simple cabin type to large, well-staffed establishments, are strewn about the shores. This is the region of summer homes, here the tired statesman builds himself a lordly retreat on some commanding site; here the busy city mother houses her kiddies in a cozy cottage and turns them loose to play in the woods and water while she enjoys a book and hammock beneath the pines.

But above all, this is the paradise of the canoeist. Paddling and drifting may be lengthened into a month-long delightful outing. A pup tent, blanket, pail, frying pan and a small supply of provisions are sufficient outfit as landings are frequent. It is quite easy to arrange one's schedule so as to eat and sleep at various resorts. Starting from Bobcaygeon on Sturgeon Lake and working toward Peterboro on the Otonabee River will take you via Oak Orchard, a very de luxe resort; Buckhorn where there are two good hotels and fine fishing; Burleigh Falls with its popular Park Hotel and cottages, and dozens of hotels and camps around Stony and Clear Lakes. Should you weary of paddling, there is always the opportunity to transfer yourself and canoe to one of the lake steamers. The fishing, bathing and dancing at the various resorts offer inducement to stop and play.

**MANY ELKS LEARNING
SENSATION OF STAGE**

Much interest is being manifested in the Elks Minstrel Show to be given June 29 and 30. Rehearsals are going on night and day, at the Elks club, and all are enthusiastic over their parts, each working hard to make his part stand out above the rest. Although there are some drawbacks, and one of them happened last week, when Claud Pitt and several other oil magnates, went to Oklahoma City. (Claud is going to have his voice manicured for the Minstrel). They were walking down the street when one of the party, stepped to the edge of the sidewalk, and spit into the gutter. He was immediately hailed by a burly policeman who said, "Spit on the sidewalk, you mutt, or I'll run you in, you're not in Ada now."

Jim Stott is making a trip to Kansas this week. Jim says he is going on business. But it is a well known fact that Jim is going into training for the burlesque prize fight which will be staged at the minstrel.

Business Manager J. C. Gowing informed the News today that Sam was really going to sing. There has been some argument about it. Several of the Elks said he couldn't sing, but Sam said he could. In fact he said he was singing to himself in his room the other day and it sounded real good. Sam said if they would let him sing he would get out and sell the program or have some one go with Mr. Ennis. So it was arranged for Sam to sing. He will sing a beautiful little ballad entitled, "If the Girls Would Only Wear Red, White and Blue Stockings, I Would Follow the Flag."

J. T. Roff, the sweet voiced tenor will sing. He will render a duet by himself "If I were Caruso I would be a Shining Star."

Little Lord Fauntleroy, otherwise known as Jim, is giving an imitation of Lew Dockstader, McIntash and Heath at the same time. He has been saving jokes and songs for over a year so he would be ready when the time came. They say when it comes to dancing that Jim "just simply dances, that's all."

But Fauntleroy is not the only Jim. There is Jim Norman, the Original Kid. He has a long monologue that he prepared himself, which he will deliver.

And now comes Con Roach. Con will do some coning. But Con cannot con everyone. Con will con some. Con says he has constructed several songs which he is going to deliver.

G. W. B. stands for Braly, Not Barley, nor Corn, but Braly. G. W. B. is going to do the high dive, or Leap for Life This is a free act and will take place outside just before the curtain goes up.

The dates are June 29 and 30.

Why Does She Look So Old?

This question has been asked about many a woman under thirty, who has married and taken upon herself the cares of a house and young children.

When a woman is suffering from female weakness, bearing down pains, head and back ache and nervous irritation, it is well nigh impossible to attend to her duties and retain the charm and freshness of youth. Must she then struggle on toward the inevitable nervous breakdown or premature old age?

Lydia E. Pinkham's Vegetable Compound has saved many women from such a fate. Thousands of grateful letters from such women testify to the merits of this wonderful root and herb medicine for female ills.

Prize Coupon

Mark which you want

Folder of Information and Answer-Blank (Free)

A New Edison and Program of RECREATIONS on a 3 day experiment offer (No charge or obligation)

NAME _____

ADDRESS _____

ADA MUSIC CO.
127 East Main—Phone 446

ALL you need is an Answer-Blank, and an idea! You can get the Answer-Blank at our store (use the coupon). You can get the idea by listening to the New Edison, either in our store or at home (see offer below).

Mr. Edison spent three million dollars in developing an instrument which would bring the true beauties and the full benefits of music into every home. He offers \$10,000 in cash prizes for a phrase, which will distinguish this instrument from the ordinary talking-machine.

Three Days of Music Free

We will lend you a New Edison for three days. No charge or obligation. Experiment with it in your own home. That's the best way to get ideas for phrases. Speak for your instrument at once, since we can lend out only a few. Bring or send the coupon.

**Increase Valuation
to Rebuild "Little
Africa" Fire Ruins**

TULSA, June 22.—Reconstruction work in the devastated area in Tulsa, the result of the recent race riot, is being worked out by a joint committee of white citizens and prominent negroes.

Reparation for the losses suffered in the recent race riot can only

be made by increasing the valuation of property in the burned district and using it for material and industrial purposes and for a union station, the reconstruction committee has informed the negroes. The original plan to rebuild the negro district by popular subscription has been abandoned.

The reconstruction committee is working on the proposal to move the negro district farther out and allow the negroes to build their homes and business buildings on

property that can be purchased at a lower price than the property they now hold will bring as industrial property.

Proposals have been made for the construction of an interurban terminal as well as a union depot in the old negro district, thus enabling interurban lines to come into the city without being forced to spend large sums of money buying a right of way into the city. The old negro district adjoins the county line.

**Better Goodyear Tires Than You
Have Ever Known**

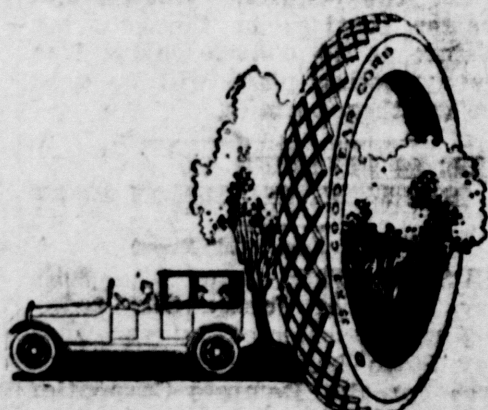

Goodyear Tires for passenger cars are better today than they have ever been. You need only to compare them with others to see their manifest superiority. We have given them a thicker tread, a more powerful body, an improved construction throughout—making them larger, stronger, heavier, and even more durable than before. If you seek the utmost in economical and satisfactory tire equipment, ask your nearest Goodyear Service Station Dealer for Goodyear Tires.

THE U. S. USCO TREAD
Here is the U. S. USCO Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the USCO has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

Which one of your neighbors gets the best mileage out of his tires?

EVERY once in a while you hear a motorist say as he kicks a rear tire with an admiring foot, "there's a lucky tire!" Give him a chance and he'll tell you all about it. And then you'll find that what he calls "luck" is simply his first experience with a **quality standard tire**.

"Fresh, live U. S. Tires come direct to the dealer from his neighboring Factory Branch."

It all comes to **this**—buy a U. S. Tire anywhere in this country and you get definite, predictable value for your money no matter *what* weight car you drive.

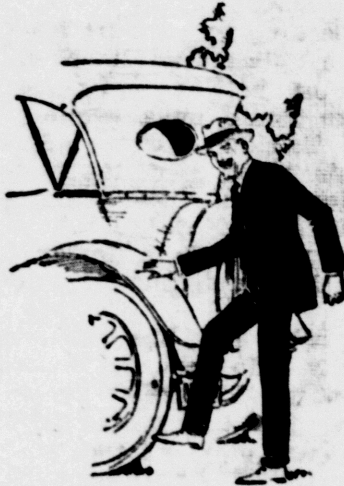

The man who has been guessing his way through "overstocks," "discontinued lines," "job lots" and the like, will find it refreshing to talk with the local U. S. Tire dealer who is **concentrating** on a full, completely sized line of U. S. Tires.

For the first time he will hear some straight **quality tire facts**—and get the difference between chance and certainty in tire buying.

The U. S. Tires he sees in stock are **fresh, live tires**. They come direct to the dealer from his neighboring Factory Branch.

There are 92 of these Branches established and maintained by the U. S. Tire makers.

Giving your dealer a continuous moving stock of new, fresh tires built on the certainty of **quality first** every time

"His first experience with U. S. quality standard tires."

In The Oil Fields

Seven wells producing an average of 15 barrels each and three drilling with good showing of oil summarizes developments in the Ada-Francis field.

According to reliable information from the Francis grounds, the Kroeger and Gillette well, in 36-5-6, is producing about 12 barrels a day at a depth of about 1600 feet. The Benedun Trees company in 32-5-7, has three producers of an average of 12 barrels each, and at a depth of about 1400 feet. Smith and Lee have three producers in sections 2 and 3-4-7, with an average of 20 barrels each.

The Kingwood well in 36-5-6, is drilling at 2700 feet. It had a showing of oil at about 1700 feet and is reported showing good indications at the present. The Smith and Lee well, in 3-4-7, is at 800 feet and now has a fishing job, according to reports.

Perkins and Byrnes, drilling in 34-5-7, is at 1400 feet and is now running a casing. At about 1300 feet it had 15 feet of hard sand and expected to shoot it but the casing parted.

The Westheimer interests have a big block of leases in the field and have shipped a large amount of supplies to the field with the expectation of resuming operations, it is reported. They abandoned a hole in 27-5-7 at 2500 feet.

A new refinery being constructed at Francis by the Francis Oil and Refining company is expected to be completed early in August, according to a statement made yesterday by C. E. Wood, superintendent. All materials are on the ground and the company is now installing pipes with the expectation of opening operations as soon as possible. Eleven tanks, ranging in capacity from 250 to 1000 barrels are on the ground and the completed part of the refinery is being painted a battleship gray.

Notice, bring your Maxwell, Chalmers and Velle cars to our service station, all work guaranteed. —Motor Sales Co. 6-20-21d

BEAN IS NEW OWNER OF NEWSPAPER AT FRANCIS

The Francis Wigwag, weekly paper published by L. R. Clark of this city, also publisher of the Ada Bulletin, has been bought by F. W. Bean of Francis, according to an announcement made yesterday.

Mr. Bean, who is vice-president of the Bank of Francis, has made known his intention of changing the name of the paper to the Francis Herald and publication of the new paper will start at once. Special attention will be given to news of oil developments in the Francis field, according to the new owner, and a good line of locals will be used.

We have one lot of Gingham Dresses, good styles and colors, close out prices, \$3.50.—Burk's Style Shop. 6-21-21d

A Fund of Information That You Should Have

DISRAELI, who for six years was prime minister of England, said: "It has been my observation that the most successful man in any undertaking, is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocket book to study the advertisements in this newspaper—regularly—every day.

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars—a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy.

TURK STILL UNCURED

Hope that an effective curb had been placed upon the Turk is dispelled by reports of new massacres by the Ottomans in Armenia and other parts of the Near East. Greeks have been slain, but the Armenians, as usual, are the chief victims. It appears as though old jealousies and fears are to be permitted to give the Turk unrestrained license to kill and burn in the far east, as he has for centuries?

The sinister aspect of the situation in Armenia is that the Russian bolsheviks are giving encouragement to the Turks, who are thus prompted to maintain an attitude of defiance to the allied nations. The Turkish nationalists are the outlaws of western Asia. That they are permitted to continue their depredations unrestrained is not an encouraging omen for the future peace of Europe.

BUSINESS IMPROVING

The following statement by the Guaranty Trust Company of Kansas City is but one of the many statements coming from business centers which indicate the trend of business:

"Prices are still declining, but the downward movement has become so slow as to no longer interfere with trade activity. Indeed the prices of some farm products are rather generally beginning to creep upward at least in the great urban markets. Crop prospects as disclosed by the Government report for June are satisfactory, and as a rule there promises to be but little acreage curtailment except in cotton. Railroad net earnings and building operations are showing consistent progress, and the authorized reduction in the wages of common railroad labor will doubtless result in cuts in certain particular freight rates which are the most burdensome to shippers.

"Bank reserves are still increasing in almost every district and a substantial decline has at last occurred in commercial paper. Money rates are steadily working easier, and the downward trend is very likely to continue well into next year, subject only to a temporary rise during the crop moving season. Quite important, too, is the actual payment by Germany of 1,000,000,000 gold marks to the Reparations Commission. This foreshadows improved financial conditions in southern Europe, and a reconstruction boom later on in both Europe and America."

Of course, the readjustment may not be as rapid as we should like to see it, but everything takes time, and two or three months may be required to get the upward swing well under way. Meanwhile, if every one will quit talking hard times, business will pick up even now. We cannot get away from the fact that business is to a great extent a state of mind. There has never been a time when America was in a better condition, considering the actual wealth that is in existence. The state of mind has had much to do in bringing about a slump in business; a different state of mind will help build it back.

JAZZ GOES OUT

Jazz has lost its popularity and its sway will soon be at an end. This is the good news that comes from the convention of the Sheet Music Dealers' Association in Chicago. The old melodies, stirring military marches and a few new sentimental lyrics are the best sellers in America today, the dealers report.

It was a foregone conclusion that jazz would not last. It lacked the foundation necessary for stability. To call it music was a misnomer. It could be described only as rhythmic noise, comparable in some respects to the sounds produced by savages at their dances and religious ceremonies, but lacking the dignity which may be found even in the beating of tom-toms.

The craze which Americans suddenly developed for dancing and singing to the noise of cow bells, sandpaper, police whistles, automobile horns and the other instruments which played so prominent a part in the jazz orchestra is one of those mysteries of modern civilization which must ever remain inexplicable to the music lover, although psychologists may be able to offer an explanation. The tenseness of modern life, one conjectures, got on the nerves of the people and they sought relief by breaking loose from restraint. Something of the same sort has occurred in the other arts; in painting we find the nightmares known as neo-impressionism, cubism and futurism; in poetry the insane ravings put out as vers libre. They, too, will pass, as jazz is passing.

Jazz was doomed because it rested on no orderly basis. It was so monstrous that it could not be written. "Smear" was the technical term used by jazz performers to describe their method of working. Jazz exhausted the possibilities of noise, and there is nothing left but to return to melody and harmony. They are eternal, and are adequate to supply the music craving of all normal minds. Syncopation will continue to have a place in music, but the distortion called jazz is doomed.

BELIEVES TANLAC KEPT HIM ON JOB

Comments given below do not of necessity reflect the opinion of the News. In fact, oftentimes the opinion expressed is directly opposite to that held by the News. The opinions are given, however, because this is a newspaper.

Home-Owners.

Pawhuska Capital: Preliminary census returns show that 6,000,000 American families own their homes. There are more home-owners in the United States than in any other country.

Here we find the reason for the inability of bolshevik agitators to make any headway in this country and for the general detestation in which communist doctrines are held. The man who owns his home, or hopes or expects to own one, does not take kindly to dangerous experiments in government and economics. He is not willing to take the risk of losing his property.

It would be ideal if every family could own its dwelling. The crowding of people into tenements or apartments, at the expense of health and sanitation, would then cease to be a civic problem, and there would be no profiteering by landlords.

The owning of home makes for good citizenship. He who holds title to the property on which he resides takes more interest in the betterment of the community than the one who lives in a rented dwelling. The former is anchored, while the tenant is periodically confronted with the possibility of having to move. In every way possible encouragement should be given those who suffer from the housing shortage to build their own homes. It would be a happy state of affairs if the great majority of the new houses should be erected by persons who propose to live in them rather than by those who intended to offer them for rent.

The Mexican Situation.

Oklahomans: Americans who are deeply interested in the resumption of diplomatic and friendly relations with Mexico were greatly disappointed by the statement of President Obregon Thursday that he cannot negotiate a treaty of the kind proposed by the American government. Obregon said that the trade proposals of the suggested pact were agreeable to him, but that the political provisions were not compatible with the Mexican constitution, which he is sworn to obey.

However, Obregon's statement does not necessarily mean that the provisions of the proposed treaty cannot be adopted eventually at least in principle.

At a conference between Secretary of Foreign Relations Piani and the publishers of Mexico City newspapers Thursday, the secretary indicated that steps would be taken to make changes in the laws, so that President Obregon could negotiate the proposed treaty with the United States. It was stated that the wishes of the United States could not be complied with, except by amending the constitution, and that the latter could not be accomplished by Presidential decree, but only by action of the Mexican senate.

In view of what Secretary Piani said, President Obregon's statement does not appear so discouraging.

If the Mexican constitution prevents Obregon from agreeing to the American proposals, he clearly cannot take such a course. He is just as much bound by the Mexican constitution as President Harding is bound by the constitution of the United States.

However, President Obregon can use his influence to have the constitution amended. To aid him in this, the American government will no doubt make modifications in its proposals, if such can be made without affecting the principals at issue.

Although it appears that an early agreement may not be made, as had been hoped, it is gratifying that negotiations are proceeding. Both sides are making an effort to get together, and since such a spirit is manifested, it is reasonable to believe that a satisfactory treaty will be drafted and ratified, eventually.

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Ada Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.

If women only knew the cause—that Backache pains often come from weak kidneys.

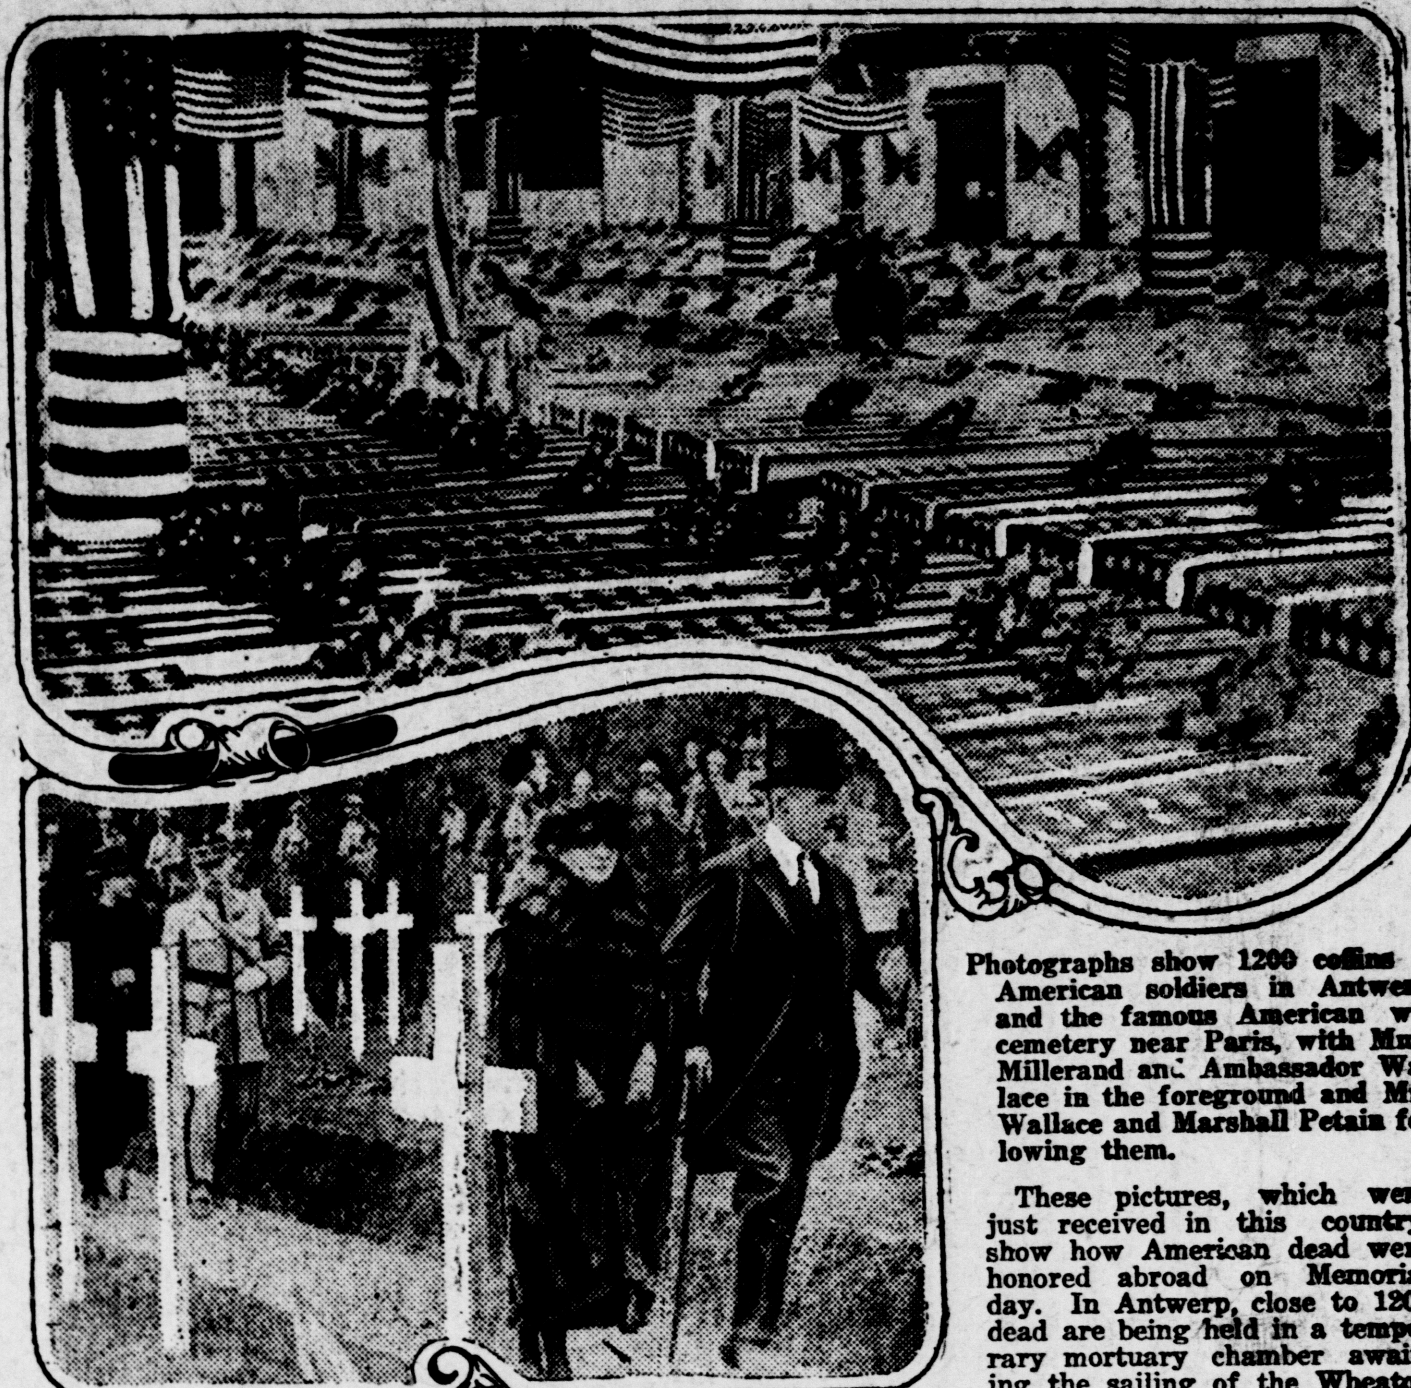

'Twould save much needless woe. Doan's Kidney Pills are for Weak kidneys. Ask your druggist! Read what an Ada citizen says:

Mrs. R. A. Sullivan, 231 W. 6th St., says: "It was about ten years ago that I took Doan's Kidney Pills and I can tell anyone that they are just fine for kidney trouble. I had awful pains across my kidneys and my back was weak and lame. My back hurt so badly when I stooped over I could hardly straighten. Then, too, when I stooped I would get dreadful dizzy spells and specks would come before my eyes, almost blinding me. Doan's Kidney Pills cured me of these troubles and I am very glad to recommend them to anyone who needs a kidney medicine."

LOTH FRANCE AND BELGIUM HONOR AMERICAN DEAD

Photographs show 1200 coffins of American soldiers in Antwerp, and the famous American war cemetery near Paris, with Mrs. Miller and Ambassador Wallace in the foreground and Mrs. Wallace and Marshall Petain following them.

These pictures, which were just received in this country, show how American dead were honored abroad on Memorial day. In Antwerp, close to 1200 dead are being held in a temporary mortuary chamber awaiting the sailing of the Wheaton for New York.

It Was Tempting Corn But Nobody Got to Drink It

No doubt that great disappointment was in store for one or more citizens of Ada when they betook themselves to a well selected hiding place to get a supply of high grade "corn juice" only a few nights ago. The selection of the hiding place for the juice was too good, and the supply was found by the wrong party.

This is according to a report made public by the police department today. Five pint bottles of corn whiskey were found by a group of boys at the Twelfth street viaduct one day this week and taken to police headquarters. The whiskey had been hidden under the viaduct by persons wishing to transfer it to others without detection, the police believe.

The one who hid the whiskey and the party who expected to get it are not known. The police declare they have no clue that would point to anyone. Four pints of the whiskey were destroyed by the mayor, the other pint being destroyed by the boys who found it.

BUCK JONES SPANS OCEAN IN NEW PLAY

Buck Jones, sportsman, athlete and marksman, appears first as a Scotch miner, and later as a member of the Northwest Mounted Police, in his latest William Fox picture, "Get Your Man," which comes to the American theatre today.

Jones, the hero of such motion picture successes as "The Man Trail," "Two Moons," "Just Pals" and "The Big Punch," displays exceptional versatility. It is said, in his latest, in the earlier scenes he appears as Jack MacTear, foreman in a Scotch mine—in which capacity he becomes the hero of a mine disaster, rescues an unworthy rival in love, and quits the country when his rival wins the girl.

He seeks the Canadian Northwest in the hope of forgetting his unpleasant experience. There he becomes a member of the Mounted

Police, and again meets the man whom Cupid favored back in Scotland—and who as a defaulter has deserted his young wife and child. Jack is now an officer on the trail of a criminal—and his former rival is the criminal.

The meeting of these two, their subsequent dealings and a second battle for the hand of another girl combine to furnish a series of dramatic incidents as thrilling as they are novel. "Get Your Man" boasts an exceptionally strong cast.

Obituary

The little daughter of Mrs. Ollie Farris died at the home of her grandparents, Mr. and Mrs. F. R. Cook, yesterday afternoon. Funeral services and interment took place at the Bebee cemetery this afternoon. Funeral services and interment took place at the Bebee cemetery this afternoon.

Mr. C. C. Kemp, father of Mrs. Anna Patten of 1923 East Ninth street, died at his daughter's home Tuesday. The remains will be shipped Friday afternoon to Kansas for burial, and will be accompanied to the train here with Masonic honors. A son from St. Joseph, Mo., who has been here the past few days, will accompany the body.

What Dresses Means to the Daughters of Eve

Folks of common understanding knows that dress makes one commanding. And the critics who know less like us better when we dress.

—Dainty Dorothy

It isn't a bit fair for any man to criticize a woman for loving clothes. She tries to understand his cigars and love for the sporting page and so why should he not—well, he should, that's all.

The women, bless 'em, are doing all they can to conserve the nation's supplies. They are having their last year's dresses and suits cleaned and done over. And they say they are mighty well satisfied with our work.

IN SOCIETY

Misses Zuma Horton and Bernice Roach left yesterday for an extended visit with friends in Okmulgee, Tulsa and Muskogee.

S. M. Shaw has returned to his home here after a three weeks recreation trip to various points in California, New Mexico and Texas.

Miss Jennie Mae Cassidy has arrived in the city for several weeks visit at the home of Rev. M. A. Cassidy.

Mr. and Mrs. Sam Becker and baby, Sammy, left today for the Great Lakes, Canada and Ohio where they will spend the summer vacation.

Mr. and Mrs. H. B. Hagar, who for several weeks have been visiting relatives and friends in Pennsylvania, returned to their home here this week.

Mrs. Anna Ingram left today for Oklahoma City and other points, where she will spend several weeks visiting relatives and friends.

Miss Ruby Victor of Shawnee was in the city this week visiting with friends. She returned to her home yesterday afternoon.

Mr. and Mrs. Harry Walker of Mill Creek are in the city visiting Mrs. Walker's parents, Mr. and Mrs. J. U. Bernard, and other relatives and friends.

Dr. and Mrs. W. D. Faust and Mr. and Mrs. J. C. Ray left today for the Blue for several days fishing.

H. S. Darlington left today for Chicago where he will attend the funeral of his father, Mr. Darlington will be away about a week.

D. S. Nolen, of Olney, Okla., passed through Ada today enroute to Davis to visit his sister who is sick at that place.

Service Car Stand at Mrs. Land's Lunch room. For quick service call Frank Ayers. Phone 749. 6-23-31.

Dodd-Ridling Wedding
A pretty wedding of the week was that of Miss Gladys Ruth Ridling and Mr. George W. Dodd, Jr., which took place Wednesday morning at 10:30 o'clock at the First Baptist church. The church was beautifully decorated with daisies, ferns and garden flowers.

Preceding the ceremony Miss Dorothy Duncan sang "Thank God for a Garden," in her usual pleasing manner. Mrs. Charles Griffith of Oklahoma City played Mendelssohn's wedding march as the bridal party entered, "To a Wild Rose" during the ceremony and Lohengrin as they passed out.

The bride's only attendant was Miss Frances Sanford of Oklahoma City, who wore a dainty frock of apple green organdy. Her flowers were a corsage of pink roses. Mr. J. P. Wesson acted as best man for Mr. Dodd.

The bride, who entered on the arm of the groom, wore a smart tailored suit of navy blue cloth with blue hat and accessories. Her flowers were an arm bouquet of bride's roses.

The marriage vows were read

by Rev. C. C. Morris, pastor of the First Baptist church.

Mr. and Mrs. Q. W. Dodd left immediately after the ceremony for a short honeymoon in Denver and other points in Colorado. After their return they will be at home at 413 Jefferson Avenue, Hugo, Oklahoma.

The bride, who came to Ada with her uncle and aunt, Mr. and Mrs. J. A. Ridling, five years ago, is a pretty and winsome young lady. For the last three years she has taught in the Hugo public schools.

Mr. Dodd is the son of Mrs. G. W. Dodd, Sr., of Hugo, and is associated with the Farm Loan and Real Estate firm.

Out of town guests were: Mrs. Grover Miller of Beaumont, Texas; Mrs. Walter Wagley and sons, Charleston and Frank of Ft. Worth, Texas; Mrs. Thomas Moore and son, Mr. and Mrs. W. M. Haisell and daughter, Sue, of Bonham, Texas; Mrs. William Sanford and daughter, Frances, and Mrs. Charles Griffith of Oklahoma City; Frank R. Cromwell of Tyler, Texas; Mr. and Mrs. L. O. Neal of Hugo, and J. P. Wesson of Hugo.

MRS. G. C. MORRIS TO STUDY UNDER VIOLINISTS

John Gardner has just returned from Tulsa where he went to meet his sister, Mrs. G. C. Morris. Mrs. Morris is on her way to Chicago where she will take lessons under Leopold Auer, said to be the greatest violin teacher in the world. Later she will be joined by her husband and they will go to New York to continue their studies in music.

Mr. and Mrs. Morris, who formerly taught here, have been connected with Baylor University at Waco, Texas. Mr. Morris will return there this fall, but Mrs. Morris will have a private studio in Dallas.

McKendree-Grant Wedding

The marriage of Miss Lenora McKendree and Mr. Thomas B. Grant of Duncan, was beautifully solemnized at high noon Wednesday at the home of the bride's parents, Mr. and Mrs. E. H. McKendree of East 17th street.

The guests, including about one hundred of the bride's relatives and friends, were met at the door by Mrs. L. A. Ellison, who presented them to Miss Mollie Russell, presiding at the register. In the dining room Misses Willie Stanfield and Catherine Edmiston served punch.

An improvised altar of ferns and sweet peas with a beautiful wedding bell of sweet peas as a central decoration was arranged in the living room, where Rev. C. C. Morris, of the First Baptist church, officiated, using the ring ceremony.

Mrs. Albert Russell played Lohengrin's wedding march for the entrance of the bridal party, led by the junior maid, Miss Tot McKendree, who wore a beautiful pink organdie dress and hat. She was followed by the bridesmaids, Miss Pearl Gay and Miss Lillian Faust, wearing green and orchid organdie dresses and hats. Next came the matron of honor, Mrs. Sam K. Grant, wearing a dress and hat of orchid and blue organdie, and the maid of honor, Miss Lilla McKendree, wearing a maize organdie dress and hat.

The groom was attended by his brother, Mr. Sam Grant, who served as best man.

The bride, who was given in marriage by her father, was lovely in a suit of blue tricotine with a hat to harmonize, and carried a bride's bouquet of sweet peas and roses.

Mr. and Mrs. Grant left immediately after the ceremony in a car driven by the bride's brother, Mr. Earl McKendree, for Pauls Valley, where they will make train connection for Galveston. After a few days in Galveston they will go by boat to New Orleans.

Mr. and Mrs. Grant will be at home to their friends after July 1st, in Duncan, Oklahoma, where the groom is a successful business man.

PICKLES

Issue Three Licenses.
Three marriage licenses were issued yesterday by the court clerk's office.
They were to Melvin Justus, 21, Francis; Tom Grant, 24, Duncan; and Miss Lenore M. McKindree, 23, Ada; and F. Anderson, 36, Muskogee, and Miss Chloe Garrett, 28, Ada.

MYSTERY OF HIS DEATH CLEARING

Daniel Kaber.

"I am willing to tell all," now says Mrs. Katherine Kaber, one of three members of her family indicted for the murder of her husband, Daniel Kaber, wealthy Lake-wood, O., publisher. Mrs. Kaber's mother, Mrs. Mary Brickel, and Mrs. Kaber's daughter by a previous marriage, Marian McArdle, also are under indictment. Mrs. Kaber at first declared her innocence of any plot to murder her husband. Later she said hired Italians stabbed him to death. Now she says that she is ready to make a complete statement.

LAWTON TO OBSERVE OPENING OF SECTION

LAWTON, Okla., June 22.—Directors of the committee in charge of arrangements for observance August 4, 5 and 6 of the twentieth anniversary of the settling of this section of the state announced today that they are making plans for an attendance of from 40,000 to 50,000 people during the 3-day celebration.

The chamber of commerce, American Legion, civic and fraternal organizations have announced their intention of aiding in putting on the attractions for the celebration. Breaking of ground for the new Odd Fellows home will take place on one of the days, according to plans, and state officials of this body expect several hundred members to attend.

Outside attractions and amusements will be brought to Lawton under the plans while the American Legion and civic bodies are getting up a series of entertainments and contests for which prizes will be offered.

W. H. CHIT, one of the prominent old settlers of the southwest, has advanced preliminary plans for the permanent organization of an Old Settlers' Association, open to any citizen of the south and west who was one of the settlers of this part of the state.

DIDN'T WASTE MONEY ON FOOD

"The recent campaign against wastefulness in eating did not affect me much as I haven't been able to eat anything but toast and tea for the past five years. Even that would create gas and cause me distress. My weight was down to eighty-four pounds and my complexion muddy. I had frequent pains in the region of my appendix. I am glad I did not listen to an operation, as Mayr's Wonderful Remedy has made a new woman of me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co.

Better be safe than sorry. Advertise in the News Want Ad columns. Quite an idea, eh?

Sour belching and a burning sensation in the throat is a symptom of indigestion, and indigestion leads to serious diseases. Take Prickly Ash Bitters, it corrects the digestive trouble, and purifies the stomach and bowels and makes a man feel good. Price \$1.25 per bottle. Gwin and Mays Drug Co.

HOLT PUTS LIMITED CHOICE TO HARDING

(By the Associated Press)

BERLIN, Ohio, June 22.—Declaring that President Harding must choose between the pro-leaders in his cabinet whom he made or the bitter enemies in the senate, who made him, Hamilton Holt, New York magazine editor, in an address at the commencement at Oberlin College today asserted that "the clear majority of the American people want the United States to enter some kind of an association of nations with enough teeth in it to actually lessen the present probability of war."

"It is the duty of all true friends of the league to give Mr. Harding every opportunity to make good with his new association of nations," said Mr. Holt.

"If it turns out that this is Mr. Wilson's league only under a new name, we cannot have a real quarrel with him even though it is pretty picaresque business, to say the least, for grown men to keep the world on the brink of revolution in order to 'save the faces' of party politicians who cannot otherwise get out of the holes in which they have dug themselves."

UNUSUAL CONDITION

Texas Lady Suffered With Pulling and Aching Pains in Her Back, Which Cardui Relieved.

Houston, Texas.—Mrs. C. D. Cook, of 1912 Whitty Street, this city, recently said: "About four months after my marriage, I... began suffering much pain, and knew that my condition was unusual, but couldn't just decide what was wrong. I had to go to bed... "All across my back and hips were pains, pulling and aching until I could hardly sit up. I stayed in bed a few days. My husband had heard of Cardui... so I told him he might get it. "After I had taken Cardui a few days, I was up. I took five bottles and haven't been in bed since for this trouble, for if I have the least symptoms of this trouble I get Cardui and take it in time.

"I have a number of friends who have used Cardui, and they recommend it very highly."
The experience of this Texas lady is similar to that related by thousands of other women.
Cardui is purely vegetable, and mild and gentle in its action. Cardui may be the very medicine you need if suffering with womanly troubles.
Take Cardui.

LEADERS DELAYED IN OPENING MEET

McBrien Party Arrives and Rural Education Gets Under Way.

Arriving in the city this morning, the McBrien party which was to take a prominent part in the Rural Education Conference held their first meeting at noon today which included the luncheon and after-luncheon addresses in the cafeteria. All of the party failed to arrive yesterday and for that reason the meeting to be held at 9:30 this morning assembly was held in the auditorium at 2 this afternoon.

Another session will be held this evening beginning at 8 o'clock at which time all who are interested in the rural life conference are invited to attend. The program is being carried out as near as possible to the original plan and the conference is progressing nicely.

Each assembly up to this time has been well attended and considerable interest is being manifested in the work. Addresses taking up every problem will be made at the regular sessions. The McBrien party consists of men and women who are competent in the work and who are prepared to give the rural school teachers a great message in the solving of the problems before them.

Prominent among the leaders in conference work at the Normal today were to be J. B. Brown, state superintendent of public instruction of Tennessee, President A. Linde, of the Normal, who was to deliver the address of welcome, A. Floyd, county superintendent of schools, L. D. Borden, chief supervisor of rural schools, state department of education, Austin, Tex., J. L. McBrien, and others.

We have buyers for farms and city property. List with us. Phone 878-868, A. L. Bowles & Co., Harris hotel. 6-10-1mo*

HARDING TO LOOK INTO RACE ISSUE

President Promises He Will Make Study to Improve Negro's Condition.

(By the Associated Press.)

NEW YORK, June 22.—President Harding, in a letter to the National Association for the Advancement of Colored People made public today, stated that he planned to proceed as early as possible to a study of the race question, with a view to ameliorating the treatment accorded negroes, as outlined in his message to congress.

"I feel strongly," he added, "that there is opportunity for the accomplishment of great and lasting good and that whatever measures will enlist the co-operation of intelligent and broad leaders of both races will serve a most useful purpose."
"As an evidence of the increasing and grateful interest throughout the country in this entire set of problems I am glad to be able to tell you that since the delivery of the address to congress on April 12, a great number of commendatory communications have come to me, indicating that in all sections and among all classes and races, there is a deepening desire for achievement along these lines."

RUSSIAN WAIFS LIVE UNDER GUARDIAN'S MILITARY RULE

Seven little Russian kiddies brought here by Admiral McCully.

These seven Russian waifs, brought to the United States last winter from Sebastopol by Rear Admiral Newton McCully, U. S. N., have their own "rules of living." These rules are much like a job's, perhaps because they were drawn up by their

naval guardian in a sixteen-page booklet. Under these regulations the children will rise at 7 a. m. and go to bed at 8 p. m. (ask any tired father how long they'll lie awake hollering for water, stories, etc.), and every minute of the period between is

carefully provided for, with special routines for Sundays and holidays. The children have just left Washington, D. C., "under orders" for Anderson, S. C., where they will spend the summer with Admiral McCully's mother.

SIMS TO REPORT TODAY FOR DENBY'S QUESTIONING

(By the Associated Press)

WASHINGTON, June 22.—Rear Admiral Sims is expected to reach Washington from New York late today and will report to Secretary Denby for questioning regarding his London speech in which he was quoted as criticizing Sinn Feiners in America. Secretary Denby plans to receive him tomorrow. The

Washington police have made no arrangements for a guard for Admiral Sims.

Do you have a lot for sale, a house, an automobile, a cow, horse or anything else that somebody else wants? The quickest, cheapest and most satisfactory way to dispose of this is by using a "for sale" ad in the Ada Evening News.

Turn to the want ad page.

SHIPS WARNED OF GULF COAST STORM

(Continued from Page 1) centralized off the coast east of Corpus Christi, and was moving northward with increasing intensity, the last report said.

Renewed warning to smaller craft was issued along the coast today and isolated communities are cautioned to be on the alert for possible dangerous developments. The velocity of the wind, according to an unofficial report, ranged from 25 to 60 miles an hour.

The United States weather bureau at Galveston reported the disturbance probably moving inland between Galveston and Corpus Christi and expresses the belief that its crest will be passed by night.

The only damage to shipping came in a wireless from the oil tanker William Samuel Doherty, who reported that she had lost her propeller off Port O'Connor, 219 miles up the coast from Point Isabel. The message, which urged that assistance be sent immediately, was picked up by the United States radio station at Fort Brown and broadcast.

Seven Inch Rain Falls.—HOUSTON, Tex., June 22.—Bay City, situated 22 miles north of Matagorda Bay, reported at 11 a. m. a barometer standing at 29.44, a drop of 22 points since 8 a. m. The rainfall is estimated from five to seven inches in the report. Wires between Victoria and Port Lavaca which is situated on Matagorda Bay are down. Victoria reported a 65 miles wind.

If you cannot eat heartily without an attack of indigestion, your stomach is weak. You need Prickly Ash Bitters. It is a fine digestive tonic. Besides, it rids the stomach and bowels of the impurities which bring on sickness. Price \$1.25 per bottle. Gwin and Mays Drug Co.

"If I could only sell something, it would be easy to get by," said a man a few days ago. He was in a News "For Sale" ad and he sold it. Moral: Are you taking advantage of your opportunity?

NORMAL NOTES

A business meeting was held in the auditorium today at noon by the Hughes county students.

The Y. W. C. A. girls have been busy this summer looking after the welfare of the ladies enrolled in the school. The reception room has been converted into a ladies rest room and is under the care of the Y. W. C. A. They have a large membership this summer and have been doing good work.

Seniors are preparing to give a class play early in July. The title of the play has not been announced at this time, but it is reported to be a popular one. Further announcements will be made as soon as the class is prepared to give the play.

Friends at the normal school have received word from Miss McClure, who is now at Louisville, Ky. She will be back to take up her work as foreign language teacher at the beginning of the fall term.

Assembly was held in the auditorium this morning at which time many announcements of importance to the student body were made. The most important of these announcements was the fact that the students who desire to drop out of school a week or two early and expect credits will not get them. It was at this time that the McBrien party was first introduced to the student body.

Fourth Prize Given for Maids of Honor in Ticket Contest

A fourth prize to be given in connection with the Elks' Minstrel Queen race was announced this morning by Manager J. C. Gowing. It will be a \$12.50 box of stationery, donated today by the Drummond's drug store. This prize will be on display at the drug store until the conclusion of the contest.

Three prizes are now provided for Maids of Honor for the Minstrel and one grand prize for the Minstrel Queen.

Reserved seats will be placed at Gwin and Mays drug store and the sale of these will open Monday morning at 8 o'clock, according to an announcement from the manager. A free exhibition will be held on the streets Saturday afternoon beginning at 4 o'clock when end men of the minstrel will make their debut. N. B. Stall announced Wednesday. Reserve seat tickets can be had by presenting a general admission ticket and paying for the reservation.

Adjust City's Pumps and Water Pressure Is Assured for Ada

Testing out the pumps at the city reservoir yesterday afternoon proved a success, according to those who were present at the test. The pumps, when first installed, had been set out of line and it was necessary to have them changed. Now the work has been completed and the water from the reservoir can be turned into the mains in a very short time.

With 2,000,000 gallons of water in storage, the regular pressure staying about 50 pounds and no show of any weakness in the system, it is believed that the city is now out of danger of a water famine. The regular pressure when at 40 pounds will supply plenty of water for the city, but the pumps at Byrd's Mill are able to keep it up to more than 50 pounds.

We have a very nice assortment assortment of new slippers, white, kid, satins and other styles which will please you in quality and price. —Burk's Style Shop. —21-2td

CITY WILL COOPERATE IN WORK ON STREETS

Since the plan now being worked out by W. S. Smith, city street commissioner, concerning the graveling of the main resident streets of the city, was announced a few days ago, some misunderstanding as to the true methods to be adopted has arisen, Smith said Wednesday.

The plan calls for a donation on the part of the property owners to buy the necessary equipment, while the city will furnish the funds for financing the work. Some were of the opinion that the property owners would be required to buy the equipment and pay for its operation, but this is a wrong impression, according to Mr. Smith.

If the proposition is adopted and the people raise the money, I will do the work as fast as possible," he said. The street on which the most money is donated will receive the first work, he declared, and other streets will be worked in the order of the amount raised.

Immediate steps will be taken to put the plan in operation and if property owners co-operate with the commissioners in the work, it is believed that the streets will begin receiving the first layer of gravel in the near future.

Hard work acts unfavorably on the body that is bilious or constipated; producing low spirits, weakness and loss of energy. Prickly Ash Bitters is the remedy that men use as a system cleanser and invigorator. It creates energy, good appetite and cheerfulness. Price \$1.25 per bottle. Gwin and Mays Drug Co.

One Case in City Court

Only one case was called to the mayor's attention this morning, it being that of Bill Smith, charged with being drunk. He was found guilty of the charge and paid his assessment of \$10.75.
